Philanthropy Project 1986 Minnesota Foundation List

This list was prepared as a quick reference to the largest Minnesota foundation and corporate giving programs using data from Minnesota Philanthropic Support for the Disadvantaged (1985).

The information for each grantmaker includes: name, address, telephone number, and contact person. For some grantmakers additional information is provided including:

Support for Disadvantaged: The first column on the left represents the percentage of their total giving that was granted by each grantmaker to benefit disadvantaged people. The first figure indicates the overall percentage and this percentage is further divided among the three constituency groupings developed by the Philanthropy Project for its research:

- o Racial minorities: organizations serving Blacks, Asians, American Indians, Hispanics and racial minority women.
- o Women: organizations serving women.
- o Other disadvantaged: organizations serving low income, handicapped (physically and mentally) senior citizens, illiterates, and neighborhood organizations.

Geographic Distribution: The second column indicates how the overall percentage given to benefit disadvantaged was divided among the four geographic areas identified by the Philanthropy Project. The first number designates the percentage given in the Twin Cities. This percentage is further divided between East Metro (St. Paul and suburbs) and West Metro (Minneapolis and suburbs). The second number indicates the percentage given in Minnesota but outside the metropolitan area. The third and fourth numbers indicate the percentage given outside Minnesota to organizations in other states with a local or national focus.

Grantee Types: In this column, the first number (based on 100 percent) indicates what percentage of the money given to benefit disadvantaged people was granted to organizations that are controlled by their constituency. The next three numbers indicate the distribution of the overall percentage based on the types of services that are provided by the recipient organizations.

- o Traditional services: includes higher education, day care, literacy, and the United Way.
- o Alternative services: includes economic development, alternative arts organizations, community clinics and women's health.
- o Advocacy: includes organizations such as neighborhood councils, tenants unions, and peace and justice coalitions.

Sample Grants: The list of sample grants was obtained from the annual reports of the grantmakers, from the 990PF IRS forms, or from lists provided by the corporate giving programs. While it is not a complete list, it is representative of the types of programs that are supported by each grantmaker and the size of the grants that the different types of organizations receive.
